European Mortise Lock-
Heavy Duty Type

Introducing the TM5200 smart lock, where practicality meets security. The exterior design of TM5200 boasts an alloy composition seamlessly integrated with fire-resistant materials, cultivating a straightforward and robust aesthetic. Engineered for simplicity, this smart lock prioritizes ease of use, ensuring a swift and uncomplicated escape when needed. While foregoing extravagant elegance, the TM5200 focuses on providing a reliable and functional solution for your security needs, seamlessly integrating technology with the peace of mind that comes from a straightforward, dependable design.
