

WIDE STILE EXIT DEVICES

RIM EXIT DEVICES

531 Strike Shim

- Furnished with the 532 Strike. This 1/8" thick shim is used to prepare doors with a 1/2" stop. It ensures the correct distance between the device latch and the surface-applied strike when the stop is 1/2" high.
- If the frame has a 5/8" stop, this shim is not required.

532 Panic Rim Strike

- Surface-applied. Standard for 5000 Series panic rim devices.
- Made of stainless steel with a plated roller.

533 Fire Rim Strike for 5510 Model

- Surface-applied. Standard for 5500 Series fire rim devices.
- Constructed entirely of stainless steel, including the roller.

538 Fire Rim Strike for 5710 Model

- Surface-applied. Standard for 5700 Series fire rim devices.
- Constructed entirely of stainless steel.

Specifications
